Not in Preference order														
Colton, County of San Bernardino	Senior Housing	Construction defects caused the City to close a 100 senior unit low to moderate income housing project. In addition, the City's resources are extremely limited. The City must find a way to replace these unit but to also meet the growing demand of low to moderate income housing for its aging population.		\$ 12,000	tbd			216	\$0	0.0	\$826	\$0	0.0	
Colton, County of San Bernardino	Green Technology Corridor	Green Technology Corridor: Develop/implement a Green Technological Corridor to include studying different types of green industries looking for expansion, identifying necessary infrastructure, putting together a strategy to construct the infrastructure,		\$ 500	tbd			9	\$0	0.0	\$34	\$0	0.0	
Colton, County of San Bernardino	Four Seasons Apartment Complex	The Four Seasons Apartment Complex is a 55-unit, low-income housing project located at the north eastern part of Colton in a primarily residential neighborhood. The property owner has little regard for the condition of the property and/or its tenants. Within the last 4 months, there have been two homicides immediately adjacent to or related to this project. It's a hot bed of suspicious activity to include gangs and drugs which has led our police department to have an increased presence if nothing more than to provide the residents in the adjacent residential neighborhood with a sense of comfort. Colton is extremely interested in acquiring funds to aid in acquiring the troubled property which was listed for sale within the last couple of weeks, rehabilitating it and turning it into a comfortable and safe living environment for the low income residents that are trying to raise their young families.		\$ 6,400	tbd			115	\$0	0.0	\$441	\$0	0.0	Acquisition and rehabilitation of the complex will provide a safe living environment for low income families and will reduce the amount of policing that is required to ensure residents in the immediate neighborhood have a safe living environment.
