EXHIBIT D
RIVERSIDE COUNTY ECONOMIC DEVELOPMENT AGENCY AVIATION DIVISION FUELING STANDARDS

I Introduction. The County of Riverside owns six general aviation airports, which are operated by the Riverside County Economic Development Agency’s Aviation Division. An important function that occurs at these airports is the fueling of aircraft and the storage of aviation fuel. Due to the potentially hazardous nature of these activities, the potential for soil contamination as a result of these activities, and the need for uniformity in the provision of fuel, the Aviation Division has developed minimum standards for fueling, which are hereby incorporated in the County’s Minimum Standards for Fixed Base Operators.

II Definitions.

A. Commercial fueling: The fueling of aircraft by anyone other than the owner of the aircraft.

B. Self-fueling: The fueling of aircraft by the aircraft owner/operator.

C. Fuel Farm: Bulk fuel storage area.

D. Full Service Fixed Base Operator (FBO): Allowed under the FBO Minimum Standards to sell fuel and lubricants retail.

E. Through-the-Fence Operators: Aviation activities conducted from properties adjacent to County Airports. Through-the-Fence operations are only permitted in limited circumstances and require a special County permit as well as review by the Federal Aviation Administration.

III Types of Fueling Permitted. The operation and maintenance of a fuel farm and the provision of fuel to aircraft shall be permitted as follows:

A. Commercial fueling. Commercial fueling may only be conducted by Full Service FBOs in accordance with these fueling standards and the County’s Minimum Standards for Fixed Base Operators.

B. Self service. The owner of any aircraft may fuel their own aircraft subject to the standards contained herein, provided that there is no attempt to perform such services for others, without regard to whether a charge is assessed for said services.
IV Fueling Standards.

A. Storage of fuel. Fuel may only be stored in an approved and permitted fuel storage tank, subject to the following standards:

1. Minimum lot size: Fuel Farm, 1 acre; Aviation Division and County Fire Department approval required for private tank installations on leased parcels.

2. Setbacks: Will be determined in accordance with Riverside County Ordinances 787 and 546.15.

3. Tank Size: Min. 10,000 gallon for fuel farms for each type of fuel and 2,500 gallons for private storage tanks. Note: Below ground tanks also require approval from the County’s Department of Environmental Health.

4. Insurance: Full Service FBOs must identify the insurance coverage for the fuel tanks, trucks, and dispensers in the insurance policies required in the County’s lease agreement.

Private individuals with fuel tanks on their lease parcels for private use must have the fuel tank identified in their insurance policy and provide proof of coverage.

B. Fueling of aircraft. All aircraft fueling shall be performed by qualified personnel subject to the following standards:

1. Fuel Dispenser. Fuel may be dispensed from a licensed and permitted fuel truck or directly from a licensed and permitted fuel tank.

2. Self fueling of private aircraft will be allowed with a permit from the Aviation Division and inspection by the County Fire Department. At a minimum, self fuelers will be required to have one 20 “BC” rated fire extinguisher and a grounding mechanism (from the fuel tank to the aircraft) on-site.

C. Fuel deliveries may only be made to permitted sites and by permitted companies.

V Prohibited Activities.

1. No fueling will be allowed using gas cans.
2. An individual may only fuel their own personal aircraft.

3. All fueling activities must be permitted by the Aviation Division or have a Full Service FBO lease with the County of Riverside.

4. Only Full Service FBOs will be allowed to resell fuels and lubricants.

5. No aircraft may be fueled inside a hangar or enclosed space (Ord. No. 576).

VI Fuel Supplier License. All fuel companies that deliver fuel to Riverside County Airports shall adhere to the following:

1. Agree to copy the Aviation Division on all oil and fuel deliveries made to the airport.

2. Operate delivery vehicles according to airport rules and regulations.

3. Agree to report all overfills and spills of fuel to the Aviation Division, the County Fire Department, and the County’s Department of Environmental Health immediately.

4. Obtain a no-fee Fuel Supplier License from the Aviation Division.
